

Barking & Dagenham

Dear Parents/Carers,

The Children & Young People Disability Hub has developed two different PECS packs, to help and develop communication with our children and young people.

The PECS (Picture Exchange Communication System) are commonly used, to encourage communication without relying on speech.

There are two different packs:

- pack 1: daily routines (eat, toilet, school, car/bus)
- pack 2 with basic symbols (stop, help, quiet)

The PECS packs, have a cost of £1 each, and it can be purchased in our HUB. If PECS pack are lost then the cost of a replacement will also be £1 each.

If you need more information about PECS, please contact our team.

Regards,

Children and Young People
Disability Hub
